

## CSCI – 620 Introduction to Big Data

### Status Report

Team Name: 65<sup>th</sup> Bit

Dharmendra Hingu (dph7305@rit.edu), Geeta Madhav Gali (gg6549@rit.edu),  
Sai Venkat Kotha (sxx2606@rit.edu), Sanjay Varma Rudraraju (sr2567@rit.edu)

Name - Geeta Madhav Gali (gg6549@rit.edu)

Status -

I feel that I am learning a lot and quite comfortable with the way the project is progressing for our team. We have established a good understanding of Weka. The cleaning of the dataset and documentation along with binning the dataset into testing and training are completed. We found that the model changes with a change in testing and training dataset and it affect the performance of the model. We have completed the sample exercise in Seeds-TeamProject-2017-Analysis.pdf. We are currently working on building decision trees for different testing and training splits.
